

# 270/271

# 270/271 Healthcare Eligibility Benefit Inquiry and Response Real-Time

This companion document is for informational purposes only to describe certain aspects and expectations regarding the transaction and is not a complete guide. The details contained in this document are supplemental and should be used in conjunction with the ASC X12 Standards for Electronic Data Interchange Technical Report Type 3 (TR3) as published by the Washington Publishing Company.

Section 1 – Healthcare Eligibility Benefit Inquiry and Response: Basic Instructions

Section 2 – Healthcare Eligibility Benefit Inquiry and Response: Enveloping

Section 3 – Healthcare Eligibility Benefit Inquiry and Response: Charts for Situational Rules

NOTE: UniCare has designated Availity to operate and serve as UniCare's EDI Gateway (entry point) as a no-cost option to our Trading Partners.

#### **Get Started With Availity**

The Availity Quick Start Guide will assist you with any EDI connection questions.

If you're a provider and wish to use a Clearinghouse or Billing company, please work with them to ensure connectivity.

#### **Need Assistance?**

For questions about signing up, contact Availity Client Services 1-800-AVAILITY (1-800-282-4548) or visit <a href="https://www.availity.com">www.availity.com</a>

# **Section 1 - Basic Instructions**

# 1 Council for Affordable Quality Health Care (CAQH)

CAQH is a non-profit alliance of health plans and trade associations focused on achievable, concrete initiatives designed to strengthen the nation's health care system and simplify health care administration. The CAQH CORE Phase I & II operating rules have been adopted by the Department of Health and Human Services as necessary business rules and guidelines for the electronic exchange of information. These operating rules are incorporated into this companion document.

# 2 Business Purpose

The purpose of generating a 270 Inquiry is to allow providers to determine if, and what, benefits and coverage a UniCare member with an ID card has for a specific period of time. To obtain the highest possibility of a patient match for eligibility, the following five primary identifiers should be supplied.

- Patient's First Name, in its entirety (10 characters): Loop 2100D, NM104 (if subscriber is the patient); Loop 2100C, NM104 (if dependent is the patient)
- Patient's Last Name: Loop 2100D or Loop 2100C, NM103
- Patient's Date of Birth: DMG02
- Subscriber ID Number exactly as it appears on the UniCare ID card including alphanumeric prefix, if applicable: NM109
- Dates of Eligibility requested by Provider: DTP03

When the criteria are not met, the AAA segments of the 271 Response will indicate the reason for why the 270 Inquiry has been rejected.

#### 3 Delimiters

UniCare accepts the following delimiters as defined by the ANSI standards of the basic character set:

- Data Element Separator, Asterisk (\*)
- Repetition Separator (ISA11), Caret (^)
- Sub-Element Separator, Colon (:)
- Segment Terminator, Tilde (~)

NOTE! Since the above values are the only delimiters supported, the use of any other values will yield a file level rejection. Using values from the extended character set is not permitted without a mutual written agreement between UniCare and trading partner

#### 4 Uppercase Letters

UniCare requests that all data be entered in UPPERCASE letters only.

#### **5** Social Security Number

Unless requested, do not send Social Security Number (34, SY) in the following loops of the 270 TR3:

- Loop 2100B NM108 Information Receiver Name (34)
- Loop 2100B REF01 Information Receiver Additional Identification (SY)
- Loop 2100C REF01 Subscriber Additional Identification (SY)
- Loop 2100C PRV02 Provider Information (SY)
- Loop 2100D REF01 Dependent Additional Identification (SY)
- Loop 2100D PRV02 Provider Information (SY)

#### 6 Communication Protocol Specifications (not applicable to those transitioned to Availity)

- Transactions Per Second (TPS) Threshold. Must be no more than 20 transactions per second. This
  rate is a guideline and is not the rate UniCare expects regularly. Do not use the TPS threshold to
  send transaction bursts or mimic batch processes. The TPS threshold is a combined maximum
  across all concurrent threads your application may establish.
- HTTPS Connectivity. HTTPS connectivity is available through the internet.

Web Address. Use the HTTPS URL address where an embedded 270 message may be sent using the HTTPS protocol for a 271 response.

Real-Time URL (single inquiry only): <a href="https://www.edirealtime.com/edirealtimeph2/edirealtime">https://www.edirealtime.com/edirealtimeph2/edirealtime</a>

**HTTPS Message Format**. Input parameters (see table, HTTPS and SOAP metadata) for real-time needs to be submitted on the 270 request data in order to receive a 271 response message.

**SOAP Message Format**. SOAP used the same field descriptions as HTTPS, but in SOAP format. You must request WSDL files for SOAP processing.

SOAP URL: https://www.hipaaiaswebservice.com/wsedirealtime/wsedirealtime

	HTTPS and SOAP Metadata (Real-Time)							
Field Name	Description	Format	Example					
PayloadType	Specifies the type of payload included within a request.	Text	X12_270_Requ est_005010X27 9A1					
ProcessingMode	Indicates Batch or Real-Time processing mode.	Text	RealTime					
PayloadID	Identifies the request submitted.	Alphanumeric, may contain hyphen						
EncType	Form Data Type	multipart/form-data						
TimeStamp	Time and Date specifying when a message is created and sent to a receiver.	Universal Time (UTC) http://www.w3.org/TR/xmlsch ema11-2/#date/Time	2010-02- 22T15:15:52Z					
UserName	Is used to log into the account. A password will be associated with the User which allows a request to complete. Username is assigned.	6-12 characters; not case sensitive						
Password	Pairs with the <i>User</i> field to allow access to the eligibility request system. Password is assigned.	6-12 characters; case sensitive						
SenderID	Represents the Sender ID (ISA06) from the X12 file being submitted.	Alphanumeric						
ReceiverID	Represents the Receiver ID (ISA08) from the X12 file being submitted.	Alphanumeric	UNI					
CORERuleVersi on	Represents the CORE Rule version; can be used to maintain backward compatibility when parsing/processing messages.	Version number	2.1.0					
Payload	Contains the file with the X12 request data.	HIPAA X12 Compliant						

#### **HTTPS Error Messages**

The following are the different message responses and error notifications that may be received when submitting 270 requests.

- HTTP 202 Ok. When authorization is passed and interface is successful with eligibility systems, HTTP 202 Ok status code and the 271 response X12 data content will be returned by the application.
- **Authorization Errors.** If the username and/or password included in the request are not valid, HTTP 403 Forbidden error response with no data will be returned by the application.
- **Server Errors.** When the CAQH connectivity application is not able to process a real-time request due to interface failures or Eligibility system unavailability etc., standard 5xx series error such as HTTP 500 Internal Server Error or HTTP 503 Service will be returned by the application. In this scenario, the 270 request submitter will need to resubmit the request since the application process for 271 message reply failed.

#### 7 System Hours of Availability

As a CORE-certified health plan, UniCare follows the guidelines as set forth under Section 1 of the CAQH CORE System Availability Rule. Regularly scheduled system downtime/maintenance will be reserved for Sundays and the following holidays:

- New Year's Day (01/01/CCYY)
- Memorial Day (Last Monday in May)
- Independence Day (07/04/CCYY)
- Labor Day (First Monday in September)
- Thanksgiving Day (Fourth Thursday in November)
- Christmas Day (12/25/CCYY)

#### 8 Acknowledgements and/or Reports

Submitting a 270 transaction, you will receive the following responses:

- Functional acknowledgement reports that includes TA1 (X12) & TA1 (864) when the ISA-IEA envelope cannot be processed and/or 999 when submitted 270 does not pass Level 2 HIPAA validation.
- 271 is returned in all other cases to indicate the member status.

#### 9 Receiver ID

Trading partners submit the receiver ID values (ISA08 and GS03) associated to the provider of service. The Application Receiver ID (GS03) is submitted as DEN when requesting eligibility for dental policies.

Receiver ID						
	Real-Time					
State ISA08 GS03						
UniCare	UNI	UNI				
DEN	UNI	DEN				

# 10 Individual Service Types Supported

UniCare will respond with specific eligibility and benefit information when an inquiry is submitted with one of the following service type codes:

E	EQ01 Service Type Request		03 Service Type(s) Response	Definition / Comment
1	Medical Care	1	Medical Care	Medical services and supplies to diagnose and/or treat a
		2	Surgical	medical condition, illness, or injury and provided by a physician
		42	Home Health Care	or other healthcare provider.
		45	Hospice	
		69	Maternity	
		76	Dialysis	
		83	Infertility	
		AG	Skilled Nursing Care	
		BT	Gynecological	
		BU	Obstetrical	
		DM	Durable Medical	
			Equipment	
2	Surgical	2	Surgical	Surgical services provided by a physician or other healthcare
		7	Anesthesia	provider.
		8	Surgical Assistance	
		20	Second Surgical Opinion	
4	Diagnostic X-Ray	4	Diagnostic X-Ray	Diagnostic x-ray provided or ordered and billed by a physician or other healthcare provider.
5	Diagnostic Lab	5	Diagnostic Lab	Diagnostic lab provided or ordered and billed by a physician or other healthcare provider.
6	Radiation Therapy	6	Radiation Therapy	Radiation therapy or x-ray therapy provided or ordered and billed by a physician or other healthcare provider.
7	Anesthesia	7	Anesthesia	Anesthesia services related to inpatient or outpatient surgery provided or ordered and billed by a physician or other healthcare provider.
8	Surgical Assistance	8	Surgical Assistance	Assistant surgeon/surgical assistance provided by a physician if required because of the complexity of the surgical procedures.
12	Durable Medical	12	Durable Medical	Purchase of medically necessary equipment and supplies
	Equipment Purchase		Equipment Purchase	prescribed by a physician or other healthcare provider that can withstand repeated use, is medically necessary for the patient, is not useful if the patient is not ill or injured, and can be used in the home.
13	Ambulatory Service Center Facility	13	Ambulatory Service Center Facility	A facility that provides services on an outpatient basis, primarily for the purpose of performing medical, surgical or renal dialysis procedures.

E	EQ01 Service Type Request		03 Service Type(s) Response	Definition / Comment		
18	Durable Medical Equipment Rental	18	Durable Medical Equipment Rental	Rental of medically necessary equipment and supplies prescribed by a physician or other healthcare provider that can withstand repeated use, is medically necessary for the patient, is not useful if the patient is not ill or injured, and can be used in the home.		
20	Second Surgical Opinion	20	Second Surgical Opinion	Additional professional opinion sought to verify or confirm the necessity for surgical procedures.

UC	Urgent Care	UC	Urgent Care	Medical services and supplies provided by physicians or other healthcare providers for the treatment of an urgent medical condition or injury which requires medical attention.		

# Section 2 - Enveloping

EDI envelopes control and track communications between you and UniCare. One envelope may contain many transaction sets grouped into the following:

- Interchange Control Header (ISA)
- Functional Group Header (GS)
- Functional Group Trailer (GE)
- Interchange Control Trailer (IEA)

UniCare has designated Availity to operate and serve as UniCare's EDI Gateway (entry point) as a no-cost option to our Trading Partners. Availity has specific requirements that must be adhered to and should be reviewed in order to ensure transactions are accepted, processed and ultimately delivered to UniCare.

For more information on submitting claims and the required ISA and GS envelope values, review the following topics in the <u>Availity EDI Guide</u>.

- · Uploading and downloading EDI files
- Control Segments/Envelopes
- FTP Client Confirmation
- Acknowledgements and Reports

# Section 3 - Charts for Situational Rules

Listed below are loops, segments, and data elements required for processing by UniCare per the situational rules in the 270/271 TR3.
